New flush mounting USB socket outlets.
Fill up with energy.

Excellent performance, great versatility.

An intelligent, practical and functional home is able to provide concrete answers to daily needs.

The **new flush mounting USB socket outlets** stem from these foundations to simplify everyday life: they enable fast charging for portable electronic devices such as smartphones, tablets, MP3 players, GPS navigators and, thanks to the high stability of the output power, they permit safe charging and proper functioning of the device while charging. Their practicality and installation versatility are a valid alternative to the traditional battery charger.

Ideal for homes, offices, hotels and ships.

1-MODULE USB SOCKET OUTLET

- 1,5 A: **the most powerful flush mounting 1-module USB socket outlet;**
- with **1 module** for **highly flexible installation;**
- **ideal for all devices.**

2-MODULE USB SOCKET OUTLET

- 2,1 A: **the most powerful flush mounting 2-module USB socket outlet;**
- **2 USB outputs to charge multiple devices simultaneously:** it enables charging a single 2,1 A device or two devices simultaneously with a maximum total power of 2,1 A;
- **ideal for tablets:** it charges the main devices fully in less than 6 h.
- One of the two outputs is identified as **High Power** and enables charging the most powerful devices at full speed (such as 10" tablets).

How to harness the power of USB socket outlets:

1 module

2 modules
